15% of the assessment will be based on weekly seminar tasks. You will be asked to submit all of the following in weeks 2-5, 7, 9 and 10:

1. a short piece of writing (deadline on the day before the seminar)
2. a peer review of another's writing (deadline on the day before the seminar)
3. a revision of your short piece of writing (deadline a day after the seminar)

Each piece of work gets graded 1 or 0. You will be given an explanation if your grade is 0. Your mark will be calculated from the highest four marks you received for the short pieces of writing, the highest four marks you received for peer reviews and the highest four marks you received for essay revisions.
